# What is a Strategic Plan?

A **Strategic Plan** is a document where the leaders of an organization outline their vision for the future through goals and objectives.

A **Strategic Plan** provides a framework and direction that ensures goals are aligned and teams are moving in the same direction.

- These plans can be cascaded down from corporate executives or developed from the bottom up to show more tactical direction and desired accomplishments.

# Example of an FP&A 3-Year Strategy

The background of the slide features a close-up, slightly blurred photograph of various colorful wooden blocks and letters scattered on a blue surface. The blocks are in shades of green, yellow, red, and blue. Some are shaped like letters (e.g., 'A', 'E', 'H', 'I', 'L', 'O', 'U') and others are simple geometric shapes like circles and rectangles. The lighting is soft, creating a professional yet approachable aesthetic.
