Dashboards with Planful

Spend time understanding your business, not formatting your reports with flexible, interactive dashboards.

Customize with Easy Drag and Drop

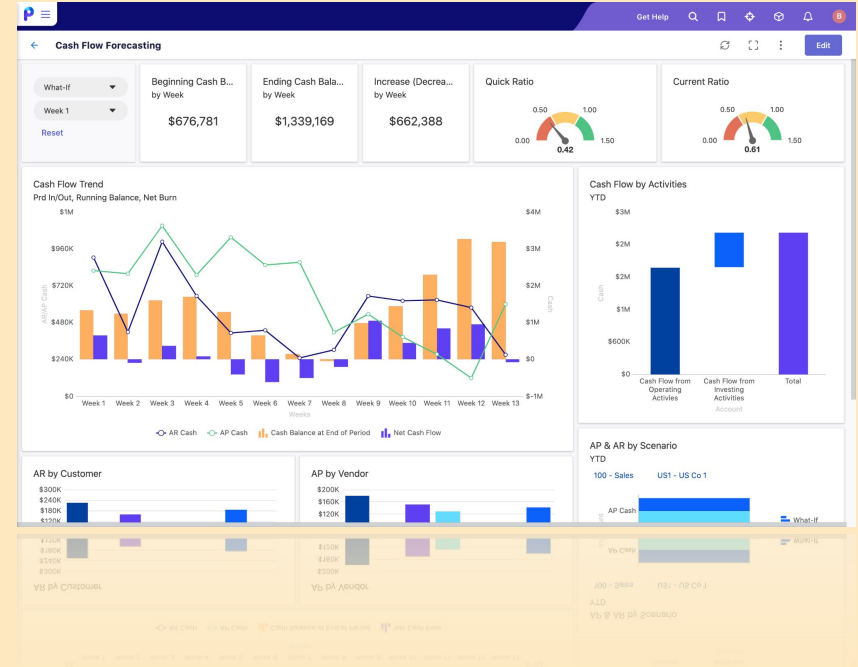

Visualize financial and non-financial data on an intuitive UI without any coding knowledge or extensive training

Slice and Dice, Drill Up and Down

Spot trends and performance gaps by interacting with visualizations on a single source of truth

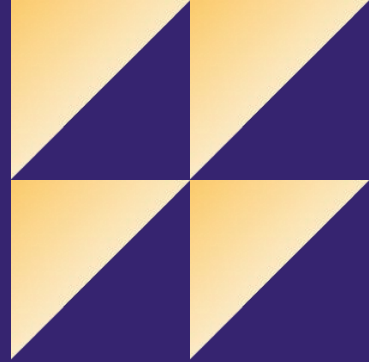

Take Back Your Time

Empower business users to make confident business decisions with self-service analysis to the data they need, in a secure way
