performance,
McKinsey

"3 Main Reasons Why Big Technology Projects Fail"
Forbes March 2021

"3 Main Reasons Why Big Technology Projects Fail"
Forbes March 2021

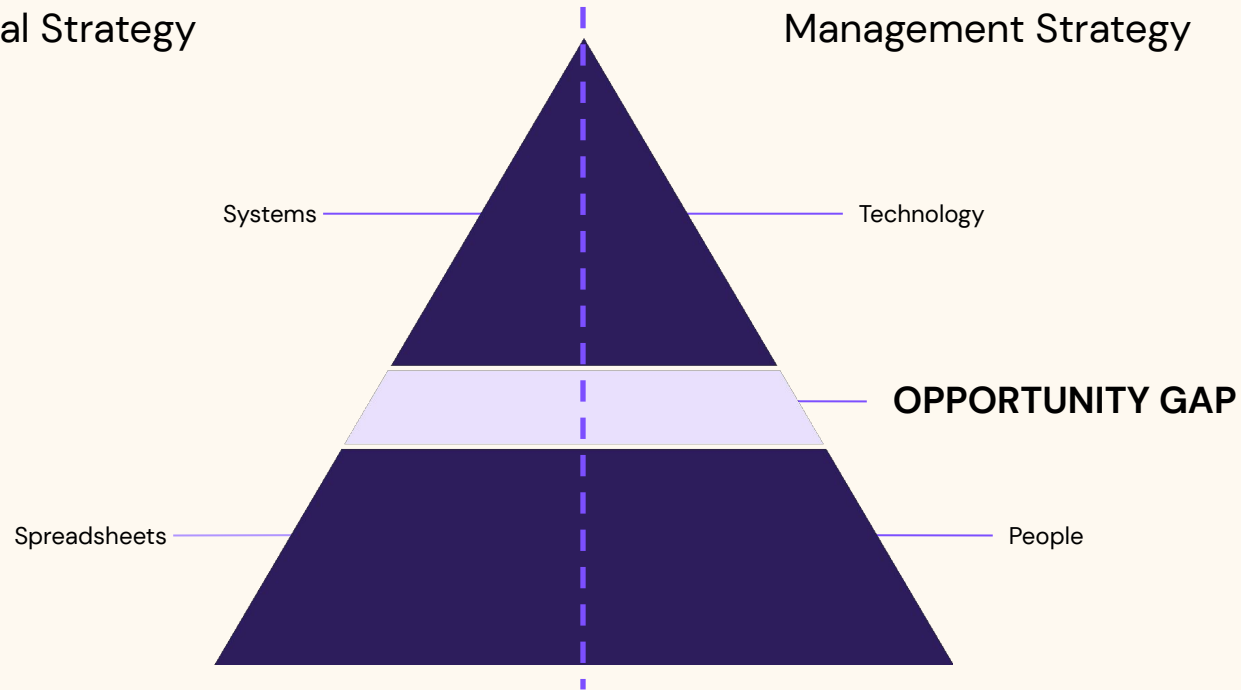

Why do so many of these big enterprise technology projects fail? 3 main reasons:

1. Companies don't have the deployable talent
2. Executives do not have the bandwidth to support big tech projects, and
3. Most corporate cultures are actually anti-technology (in spite of rhetoric to the contrary)
